Stow and go:

People multitask. Now so do diaper bags. The nine-pocket Baby Sherpa Diaper Backpack is a four-in-one system housed in a comfortable backpack with padded shoulder straps and back. A diaper-changing section has a large change pad and plenty of space for diapers. A cooler section provides insulated soft-sided storage for bottles, snacks and medicines. A floating padded interior pouch provides extra protection for a camera or breast pump. A personal-gear compartment accommodates a wallet, keys, glasses, a cell phone and other items. There's also a removable insulated bottle holder, a pacifier clip, toy loops and storage space for baby gear. In black or navy water-resistant nylon.

Baby Sherpa Diaper Backpack is \$89. For information and to order, 1-888-333-3424 or www.babysherpa.com. (The site gives no Ohio stores that carry the product, but you can place orders online.)
